

FOR IMMEDIATE RELEASE

***Jason Palmer joins Delta Computer Systems in Regional Sales Management Capacity***

July 20, 2015 – Battle Ground, WA. Motion controller innovator and manufacturer Delta Computer Systems, Inc. announced today that Jason Palmer has been appointed as the Regional Sales Manager covering the South Central states.

Mr. Palmer will assume Delta's sales and distribution management for the states of Arkansas, Louisiana, Mississippi, Missouri, Oklahoma, Western Tennessee, Kansas and Texas. As Delta's South Central Region Sales Manager, Palmer will draw upon his sales and engineering experience with PLCs, HMIs, Motion Control, and Fluid Power Systems.

Jason has 15 years of increased responsibilities in multiple industry segments. This includes applying fluid power products and RMC Motion Controllers to material test, automotive, metals and energy projects during his working career at one of Delta's best distributors. His background will add immediate value to Delta distribution channel and growing customer base.

Jason holds a MBA from DeVry's Keller School and a BSEE from Southern Illinois University. He also has earned CFPHS, PMP and PEI certifications.

"We are pleased to have a results-oriented person with Jason's industrial fluid power and control systems experience." stated Steve Nylund, Delta's CEO. "With Jason initially based in the Midwest near St Louis, Delta adds more focus for continued growth in this important South Central region." Nylund added.

**About Delta Computer Systems**

For more than 30 years, Delta has supplied motion controllers, color sensors, and other utility and industrial products that enable OEMs & integrators to build better machines.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, food, energy, automotive, entertainment, plastics, materials, aerospace, metals, forest products and others.
